

22 THINGS TO KEEP

SECRET FOREVER

1 The fact that you've carefully cut all the size labels out of your knickers.

2 That it was *your* furious kick that finished off the office photocopier.

3 How your first reaction to your best friend's baby was "Eugh"...

4 ...and that your friend's birth stories makes you want to stick your fingers in your ears and hum wildly.

5 That you sucked all the liqueurs out of your Christmas chocolates – alone and in one sitting.

6 The unchangeable fact that you accidentally sort of snogged the best man at your sister's wedding while your boyfriend was at the bar.

7 That until, oh, this morning, you thought Ché Guevara was in the Rolling Stones.

8 Just how often you listen to Celine Dion in the privacy of your own home.

9 The barefaced lies you told at your last job interview.

10 That you still use your fingers to work out your overdraft.

11 The drunken episode when you flung your arms around your boss at a colleague's leaving do and declared how lovely you reckoned she was – you know, despite what everyone else says...

12 How stricken you were when *Busted* split up.

13 That *The Da Vinci Code* is the brainiest book you have ever read.

14 Just how dirty you made one memorable weekend.

15 The conviction that you'd make a really good Charlie's Angel.

16 That you hide from the gas and electricity men because you haven't a clue where the meters are.

17 The horrifically cringe-worthy things written in your diary.

18 That Monday night is... moustache night.

19 That unfortunate episode when, aged nine, you poisoned the neighbour's dog with your home-made washing-powder cakes.

20 That you can't remember your brand new bloke's surname and it's way too late to ask again.

21 Your secret yearning for a Barbie birthday cake.

22 The fact that you retrieved a packet of biscuits from the bin, having thrown them out at the beginning of your diet... yesterday.
